

# cattle booster pellets

*safe balanced feed*

Johnson's cattle booster pellets are a hay/grain balanced production pellet specifically formulated for growth and fattening of cattle.

A balanced complete feed, processed with hay, straw, cereal grains, legumes, soyabean meal, vegetable oil, vitamins and minerals reduces the risks associated with selectivity and provide a safe diet high in energy and protein for rapid growth.

## Benefits of Hay/Grain Based Pellets

- ✓ Fibre stimulates rumination and reduces the risk of acidosis
- ✓ Cattle do not require additional access to hay or straw once accustomed to pellets
- ✓ The pellets are balanced for calcium and phosphorus to reduce the incidence of urinary calculi formation
- ✓ Reduced wastage

## Typical Analysis (DM basis)

Energy (Ruminant ME)	12MJ/kg
Crude protein	14%
Equivalent crude protein	1.2%
Urea	0.4%
Monensin	20mg/kg

## Ingredients Selection

JT Johnson and Sons range of feeds have been formulated from a selection of the following ingredients; barley, wheat, legumes, soyabean meal, almond hulls, oat meal, legume hay and straw, cereal hay and straw, molasses, vegetable oil, vitamin and mineral premix.

## Direction for Use

- Cattle should be given a minimum of 3 days free access to high quality hay prior to introduction to Cattle Booster Pellets
- Gradually introduce the pellets over a 7-10 day period with hay or straw remaining available to cattle during this time
- Hay can then be removed, and pellets fed ad-libitum
- Expected feed intake is 2-4% of liveweight per head per day
- Ensure clean fresh water is always available

## WARNING

This product contains monensin for improved feed efficiency and as an aid in the control of bloat.

Dogs, horses and other non-target species must not be allowed access to feeds containing monensin - ingestion may be fatal in these species.

**THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL**

## Withholding Period

Meat - Nil

## Pellet Presentation

- ✓ 9mm diameter
- ✓ 620-640kg/m<sup>3</sup> Bulk Density

## Order Size

Bulk  
Bulk bags 1t or 1.2t  
25kg bags

## Storage

Store in a dry, cool place that is free from pests and vermin  
Best used within 6 months of the date of manufacture
